

Improved network graph

① Index-based scale ② Time-based scale

remove author names from axis
(clutter...)

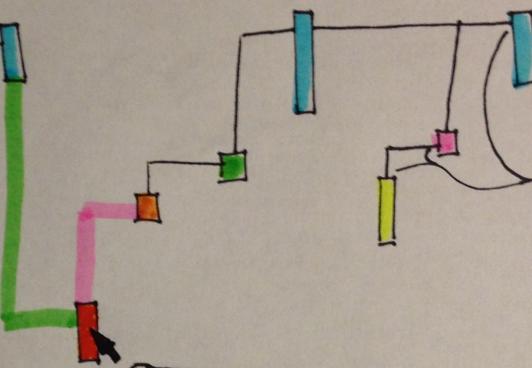

arrange by author

color by author

rectangular nodes whose length corresponds to the number of commits aggregated within them

oooo becomes

Author
#commits, date
Branch

tooltip displayed on node hover

get rid of (ugly) SVG arrowheads;
lets instead use hover interaction to communicate direction

Connects X to Y

display tooltip on link hover, and thicken + darken link
